

Johnston Resident Permit Policy

The Rhode Island Resource Recovery Corporation (Resource Recovery) has instituted the following procedure for Johnston residents to receive free tipping at the Central Landfill.

1. Resident permits are available only at Johnston Town Hall.
2. Permits are for residential household waste; no commercial loads are eligible.
3. One permit per household, per calendar year is accepted.
4. The permit is available for use once per month.
5. No permit will be accepted for free disposal if the vehicle has a gross weight in excess of 10,000 lbs. or a net weight of more than 2,000 lbs. The permit is limited to pick-up trucks, cars or small vans.
6. Each resident permit must be accompanied with an actual valid Rhode Island driver's license, no photo copied license, that matches the name and address on the permit. If the name and address does not match, the free tipping privilege will be denied.
7. All loads must be covered so no debris litters the roads.
