

## 2018 MUNICIPALLY ORGANIZED EARTH DAY CLEANUP TIP FEE WAIVER AUTHORIZATION FORM

CITY/TOWN: \_\_\_\_\_

DATE: \_\_\_\_\_

This form confirms that the above mentioned municipality is authorized to deliver this load of solid waste generated from an Earth Day cleanup(s), to the Rhode Island Resource Recovery Corporation (Resource Recovery) Central Landfill at no charge for up to 10 tons, no later than one week from the date of the last cleanup listed. These tons, up to 10, will also not count against the municipality's Municipal Solid Waste (MSW) cap. Any tons over 10 tons will carry a charge of \$39.50/ton and will count against the MSW cap. Bulky waste items still carry their normal charge as listed in the current Resource Recovery Fee Schedule.

- **The municipal organizer's signature** below certifies that the cleanups listed here did take place between April 1 and May 19, 2018; that they did not cover areas that normally fall under the municipality's or the state's responsibility to keep clean; that none of this debris is the result of a special waste collection; that none of these cleanup groups are normally charged with and have funding for litter-cleanup.
- **The driver's signature** below certifies that the content of this load is the same material and only that material generated from the Earth Day cleanup(s) listed here or, if mixed, an attachment has been included showing an estimate of the weight of the cleanup debris.

Resource Recovery reserves the right to charge the municipality's account and MSW cap for an entire load if any of the listed cleanups from that load are found to be non-compliant with the above certified statements.
